

THANKFUL FOR YOU Greeting Card Craft

1. Before you start, you will need to get scissors and a pen. Included in the kit is a 5x7 greeting card, envelope, glue stick, THANKFUL FOR YOU printed paper, and multiple strips of colored paper to decorate.
2. Glue one full strip of colored paper on the left hand side. You may need to trim it down so it goes less than halfway across the card, so less than 2.5 inches. **don't use the dark brown piece, you will need that for step 4.
3. Trim another large colored paper strip to leave a small border of the plain greeting card around the edge (should measure around 2 x 6.5 inches), and center in the remaining space on the right hand side.
4. Place the THANKFUL FOR YOU printed paper in the center of the dark brown paper and glue. Then place this in the very center of your greeting card on top of the other colored strips and glue on.
5. Now it's time to get really creative; use the remaining colored paper to create a fall design of leaves, pumpkins and gourds, or a cornucopia. It is helpful to have smaller scissors to cut the leaves or whatever design you choose to do.
6. Use your pen to draw any design on your colored paper. I used a felt-tip pen to draw some details on my leaves.
7. Voila! You have now created a fall greeting card to send to someone. Remember to check if you need extra postage due to the decorations and weight of the card.
8. Please post a picture of your completed card on our Facebook or Instagram! We love to see how people put their own unique spin on the take home crafts.

BONUS: email a picture of your completed card to ecollins@kckpl.org for a chance to win a \$20 gift card
